Environmental Infection Control Guidance

Per the United States Centers for Disease Control and Prevention (CDC) recommendations and the United States Environmental Protection Agency (EPA) Emerging Viral Pathogen regulations, the following guidance is intended for healthcare personnel working in healthcare settings or personnel who may come into contact with potentially contaminated environmental surfaces from healthcare settings:

Coronavirus Disease 2019 (COVID-19) is caused by the virus SARS-CoV-2019. **Mint Disinfectant Plus** kills similar viruses and therefore **Mint Disinfectant Plus** can be used against SARS-CoV-2019 when used in accordance with the directions for use against (Feline Calicivirus (surrogate for Norwalk virus)) on hard, non-porous surfaces. Refer to the CDC website at www.cdc.gov/coronavirus/2019-ncov/hcp/index.html for additional information.

Mint Disinfectant Plus is not for use on medical device surfaces; it is to be used on washable, hard, non-porous surfaces. Please carefully read and follow all directions on the label. It is a violation of Federal law to use the product in a manner inconsistent with its labeling.
